Missionary of the Week: Espinels/Uruguay

In an effort to solve the housing problem for students outside the country and to have adequate classroom space, FEBU has approved a new project to raise funds to add containers which will serve as housing for male students and for classrooms onto the property of the GMSA mission house. The benefit of building with containers is that they are exempt from taxes, reasonably priced, quick to build with, and can be relocated in the future as the need for expansion arises. Please pray for the needed funds to be raised in time for the beginning of the 2018 school year. Please also be in prayer for their school as they adjust to the changes following the retirement of their former president. Pray that they would have wisdom as they work through the direction in which the school should take. Finally, continue to pray for a healthy pregnancy for Kristine and the little girl on the way.
