Missionary of the Week

Shepherds College — Union Grove, Wisconsin — the country's leading three-year post-secondary educational program for students with intellectual disabilities. Their new mission statement is, "Because people with intellectual and developmental disabilities have unrealized God-given potential, Shepherds College provides a uniquely designed learning environment for our students to discover and maximize that potential, so they each are empowered to lead a fulfilling life". We regularly communicate to our students that their own God-given potential needs to be discovered, explored, and developed. The idea that disability and potential coexist in the same individual may seem contradictory, but at Shepherds College, we believe it to be reality. Pray for our admissions team, they are busy recruiting a new incoming class of students for August.
